

PACE OF PLAY → 4:10

TEAM Quota

(100% handicaps)

Each Player plays their own ball. Your “Quota” is printed on the pairing sheet. Add up your points for each hole (see table), then subtract your quota from the total. (Example: 20 points – 18 quota = +2). Your team score is the sum of each players quota score. The team with the highest team total wins!

Points:

Double Bogey or worse	0 points (pick up, please!)
Bogey	1 point
Par	2 points
Birdie	4 points
Eagle	8 points

PACE OF PLAY TIP! Double Bogey and worse are all worth zero points. Estimate your remaining strokes and pick up!

Check the pairings sheet for this week’s closest to the pin.

If your name is listed first on the tee sheet, then you are the “**Team Captain**”. You should pay the pro shop \$5 per player on your team, then collect the money from your partners. The Captain is responsible for the scorecard. Be sure to write all of the members of your team on the card and your tee time. The Captain is also responsible for recording scores for teammates at the handicap computer following the round.
